athulyaarkrishna@gmail.com | +91 9363012295 | www.linkedin.com/in/athulyaar | <https://github.com/Athulya29>

PROFESSIONAL SUMMARY

Motivated software engineer with hands-on experience in full-stack web development using the MERN stack. Skilled in building scalable applications, RESTful APIs, JWT authentication, and responsive UIs. Proficient in debugging, troubleshooting, deployment, and collaborative problem-solving to deliver efficient, high quality software solutions.

SKILLS

- **Frontend:** HTML5, CSS3, JavaScript(ES6+), React.js, Next.js, Bootstrap, TailWind CSS, Responsive Design
- **Backend:** Node.js, Express.js, Mongoose, RESTful APIs, JWT Authentication
- **Databases:** SQL, MongoDB.
- **Tools & Platforms:** Git, Postman, VS Code, Render, Vite, MongoDB Compass, Jira.
- **Professional skills:** Communication, Leadership, Teamwork, Problem Solving.

PROFESSIONAL EXPERIENCES

Freelance Developer | Woodenclouds ,Kochi | January 2026 -Present

- Built full-stack web applications using the MERN stack with responsive UI and scalable APIs.
- Managed deployment, debugging, authentication, and database integration for live projects.
- Collaborated with teams and clients using GitHub for version control, project tracking, and smooth workflow.

MERN Stack Developer Intern | Inmakes Infotech Pvt Ltd, Ernakulam | June 2025 – December 2025

- Designed and developed full-stack web applications using MongoDB, Express.js, React.js, and Node.js.
- Built RESTful APIs, implemented JWT authentication, and optimized performance for scalability.
- Collaborated in Agile teams for deployment, debugging, and continuous product improvement.

Artificial Intelligence & Machine Learning Intern | Tessolve | April 2023

- Processed and visualized datasets using Python (NumPy, Pandas, Matplotlib) and assisted in building, training, and evaluating ML models for predictive analytics.

PROJECTS

- **Garage Management System (MERN Stack):** Designed and deployed a full-stack web platform for managing vehicle services and insurance records with JWT authentication and REST APIs. Built interactive dashboards for admins, users and agents to track maintenance, view reports, and improve workflow efficiency.
- **Ensemble Deep Learning Models For Enhanced Brain Tumour Classification:** Developed an ensemble of deep learning models for brain tumor classification using MRI images, integrating multiple CNN architectures with XGBoost to enhance prediction accuracy and robustness, achieving superior performance compared to single-model approaches.
- **E-Commerce Website (HTML, CSS, JavaScript):** Built an interactive e-commerce platform using HTML, CSS, and JavaScript, emphasizing responsive design with product listings and cart interface.

CERTIFICATIONS

- Crash Course on Python - Google
- Python for Data Science - IBM
- MERN Stack Fundamentals - Great Learning
- Introduction to Java - Learn Quest

EDUCATION

B.E Computer Science | Amrita College of Engineering and Technology, Nagercoil | 2021-2025

CGPA: 8.9/10
